RUSTAM ZIYODOV

SOFTWARE ENGINEER

SKILLS

Programming Languages

JavaScript, TypeScript, Python, HTML, CSS

Frontend

React, Next.js, Redux, Tailwind CSS, Storybook

Backend

Node.js, NestJS, Express.js, Strapi, GraphQL, REST APIs

Databases

PostgreSQL, MongoDB, Prisma, TypeORM, Redis

DevOps & Tools

AWS, Docker, GitLab CI/CD, Netlify, Vercel, Webpack

Testing

Jest, Playwright, Cucumber, Gherkin

CERTIFICATIONS

2025 **Machine Learning** Specialization
2025 AWS Certified **Developer**
2024 AWS Certified **Solutions Architect**

LANGUAGES

English, Russian

EDUCATION

University of Colorado
Boulder, CO, USA
- Business Administration

Navoi State Mining Institute
Navoi, Uzbekistan
- Economics

RELEVANT EXPERIENCE

Frontend Engineer @ EPAM December 2022 – present, *Vilnius, Lithuania*
Full Stack Engineer April 2022 – December 2022, *Tbilisi, Georgia*
Frontend Engineer September 2021 – April 2022, *Moscow, Russia*

- Build and maintain production-ready web applications using **React**, **TypeScript**, **Redux**, and **Next.js** to ensure consistent, high-quality user experiences; reduced user-reported bugs by 42%.
- Deliver full stack features with **Node.js**, **NestJS**, **PostgreSQL**, and **Redis** to support evolving requirements, enabling faster iteration and smoother collaboration across teams.
- Optimize **SEO** and frontend performance through **Lighthouse** audits and accessibility upgrades, increasing Lighthouse scores to 95+ and reducing bounce rates.
- Design reusable UI components for admin panels and public-facing features to improve development speed and maintain consistency; cut frontend effort by ~25%.
- Implement CI/CD pipelines with **Docker**, **GitLab**, and **AWS** (EC2, S3, CloudWatch), reducing manual deployment time and improving release stability.
- Lead mentoring, cross-functional collaboration, and sprint rituals to support delivery quality, boost team velocity, and onboard engineers more effectively.

Full Stack Engineer @ LeroyMerlin
April 2020 – September 2021, *Moscow, Russia*

- Built e-commerce features for a DIY and home improvement store using React, TypeScript, and Node.js to improve product search, cart, and checkout flows, reducing cart abandonment by 18%.
- Customized Strapi CMS to let non-technical teams manage content and promotions, cutting campaign launch time by over 50%.
- Developed backend services for catalog, inventory, and order tracking systems to support high-traffic operations and real-time product updates across thousands of SKUs.
- Collaborated with cross-functional teams to align technical solutions with business needs, helping increase monthly online sales and improve internal workflows.

Automation Engineer
June 2018 – August 2019, *Bukhara, Uzbekistan*

- Designed and implemented centralized automation systems to control distributed devices and industrial processes.
- Deployed physical and virtual networks for secure remote management and real-time communication.
- Programmed Siemens Simatic PLCs and HMI interfaces using TIA Portal, and integrated Arduino-based microcontrollers with OpenHAB for custom user interaction.
- Integrated FreePBX with control systems to enable voice automation via databases, Google TTS/STT, Dialogflow, and Yandex SpeechKit.

EXPERIENCE

Logistics Specialist March 2013 – April 2018, *Moscow, Russia*
- Planned and monitored clients' inbound and outbound shipments.

Recruitment Specialist @ Hays July 2007 – September 2010, *London, Great Britain*
- Construction recruitment services.

Talent Manager 2006 – 2007, *London, Great Britain*
- Managed a rock-band of four artists.
